This self-declaration will help you to understand what risks are linked to your mining activity and what commitments you can make to anticipate and reduce them. It will also be a letter of introduction to potential buyers who may want to invest in supporting you in using CRAFT.

Remember to add the annexes that you consider relevant to each question.
When you see this star in front of a question in the report, it means that the topic addressed is part of Module 5 of the CRAFT Code. It means that the question addresses elements of progress in addition to the risks indicated in the OECD Due Diligence Guidance.
Do you actually have proper documentation in place to legally operate and trade minerals? If the answer is in progress or no, please explain your situation and efforts to legalize your mining operations.

Explain your answer: list the documentation you have

---

Are your mining activities performed in the territories respecting the rights of the community?

Explain your answer:

---

If you answered Yes to question 1, then answer question 4.

You want to legalize your operations and you are in dialogue with traditional authorities, ethnic communities, human rights organizations or government to this end?

Explain your answer:
HUMAN AND WORKERS’ RIGHTS

Is it possible to affirm and demonstrate that children (under 18 years of age) do not work at your mining sites?

Yes
No

Explain your answer:

In addition to the above criteria, is it possible to demonstrate that you have taken actions to eradicate all worst forms of child labor direct or indirect related to production tasks performed by children and adolescents under the age of 18?

Yes
No
In process

Explain your answer:

In addition to the above criteria, is it possible to demonstrate that you have taken actions to eradicate child labor in children under 15 in the community?

In process
Yes
No

Explain your answer:

Do you know how many children and adolescents currently work at your mining site? What activities do they perform? Is it possible to identify them all?

Yes
No

Explain your answer:
Do men and women miners voluntarily work at your mining site?

Yes  No

Explain your answer:

Are your men and women miners and workers free to resign from their jobs at any time, while respecting their work obligations and without any threats?

Yes  No

Explain your answer:

Are you free from committing any forms of torture or cruel and inhuman treatment at your mining sites?

Yes  No

Explain your answer:

Do you authorize external entities or competent authorities to verify that no gross human rights violations have taken place at your mining sites?

Yes  No

Explain your answer:
Is it possible to state that no human rights abuses take place at your mining sites?

Explain your answer:

Is it possible to state that no violence, abuse, harassment, or sexual exploitation occurs at your mining sites?

Explain your answer:

If you answered Yes to question 12 and 13, then answer question 15.

Whenever such human rights abuses happened, did you exclude proven or suspected perpetrators from your mining sites?

Explain your answer:

Most of the questions below are with a star, it means that you already took the first steps towards the due diligence process! Now you can continue with the management of other risks!
Have you carried out awareness-raising campaigns to inform, prevent and address cases of violence against women or people in a situation of vulnerability in their workplace? Understanding violence as physical, psychological, sexual, economical and property-related violence against women.

Explain your answer:

Have you carried out awareness-raising campaigns and taken preventive and corrective actions to address cases of workplace harassment and sexual harassment?

Explain your answer:

Do women and men have equal opportunities to work (e.g. mineral access and trade)

Explain your answer:

Do your mining sites and operations have an environment of respect and non-discrimination in respect to race, sex, language, religion, political or philosophical ideology, origin, economic status, place of birth, gender identity and sexual orientation, condition of disability, ethnicity or any other?

SOCIETAL WELFARE

Have you **checked through sources such as mass media, NGOs or government entities** if your operations are located in a conflict-affected and high-risk area (CAHRA)?

Yes

No

If mining operations are defined as taking place in **conflict-affected and high-risk areas** (basic information on the mining group and question 23), please answer the next two questions (24 and 25). Otherwise, answer question 26.

Is it possible to **affirm and demonstrate that you are not controlled or benefiting a group involved in human rights abuses**?

Yes

No

Explain your answer:

Is it possible to **have references from the community and external organizations** confirming that non-state armed groups do not have control over your mining sites?

Yes

No

Explain your answer:
Is it possible to state that **police or military forces do not charge any illegal taxation** and that they aren’t controlling your mining sites?

Yes  In process  No

Explain your answer:

If necessary, have you hired individuals or security services to ensure **safety at your mining sites?** This criterion is for information purposes to identify the questions to be answered.

Yes  No

Explain your answer:

If you answered **No** to question 27, then answer question 31.

Is it possible to state that the presence of police, military or individuals you hired to ensure safety at your mining sites is reasonable and that their services are rendered **under principles on human rights and national laws?**

Yes  In process  No

Explain your answer:
29 Have you checked if *individuals hired* for safety at your mining sites or mineral transport have not *been responsible for human rights abuses*?

Explain your answer:

---

30 Are payments to public security forces (military, etc.) transparent?

If payments for security are required by law, do you have receipts for all payments required by police or military forces when providing their services?

Explain your answer:

---

31 Do you have to pay *taxes* due to your mining operations?

Explain your answer: List those taxes

---

If you answered *No* to the previous question, then answer question 33.
32 Do you have receipts of compliance with tax, fee and royalty payment?

Yes
In process
No

Explain your answer:

33 Are you willing to share, if required, receipts of paid royalties or other payments related to your mining operations?

Yes
In process
No

Explain your answer:

34 Are you accepted and/or integrated in the community where your mining operations take place?

Yes

- No

Explain your answer:
Have you stopped using mercury for mineral processing?

If you answered Yes to the previous questions, please answer question 52.

Have you eliminated whole ore amalgamation extracted from your mining sites? If so, please explain the actions taken.

Have you eliminated open burning of amalgam or processed amalgam? If so, please explain the actions taken.
51. Have you eliminated amalgam burning in residential areas? If so, please explain the actions taken.

Explain your answer:

52. Have you eliminated the practice of cyanide leaching of sediments, ore or tailings to which mercury had been added without first removing mercury? If so, please explain the actions taken.

Explain your answer:

53. Have you worked together with other people or communities that use water resources you use and reached consensus with them about this natural resource?

Explain your answer:

54. Have you stopped the contamination of water bodies with chemicals and fuel residues or suspended solids?

Explain your answer:
I hereby declare and demonstrate that the answers I provided to the different questions about my mining operations and practices are true and completely verifiable.

According to this evaluation, I have a clear understanding that the journey to progressive improvement proposed by CRAFT implies the commitment to reduce the risks affecting my mining organization or group. Therefore, I shall improve the following risks and be committed to:

Please use a sticker from above based on the type of risk that you answered NO or IN PROGRESS which you want to improve. Add a title to the type of risk next to the sticker and then write down the exact actions you are committed to taking in your mining organization or group to reduce such risk, the person responsible for that and the time required. These are two examples:
